

Endpoint Privilege Management

Empowering Security, Enabling Productivity

WE'LL WORK WITH YOU ON THE RIGHT EPM SOLUTION

It's a complicated requirement. We can help.

Traditional reliance on reactive, signature-based antivirus (AV) solutions do not deliver the full-stack of security controls to mitigate ever-increasing threats of malware, ransomware attacks, and insider misuse of elevated privileges on their workstations. AV solutions are ineffective as the “last mile” control once malware evades detection.

Endpoint Privilege Management (EPM) strongly complements AV software by enabling organizations to deploy **granular least privilege** controls and restrict deliberate or accidental misuse of application privileges.

EPM solutions strengthen the endpoint security stack by defining clear controls over “**who can run what, when, and how**” across end-user environments. As EPM becomes a priority for organizations of all sizes, leaders face a growing challenge: implementing robust privilege controls at scale while preserving a seamless, productive user experience. **That's where SDG comes in.**

RIGHT-SIZED SOLUTION. VENDOR AGNOSTIC. TURN-KEY IMPLEMENTATION.

As your partners, we will help remove complexity and challenges by assisting with:

1. Vendor Selection

Having the right vendor makes all the difference. As the leading integrator for the top EPM vendors, we provide vendor-agnostic recommendations.

2. Roadmapping Your Path Forward

The project doesn't end after picking a solution — we help you strategically plan and articulate the entire lifecycle of the process for your team and stakeholders.

3. Solution Implementation

We ensure the solution is right-sized for your needs and implementation complexity is minimized. Additionally, we provide customized guidance around EPM operations and governance to be followed post-implementation.

OUR STREAMLINED PROCESS

WHY SDG?

Exemplary EPM Skillsets & Experience

With over 25,000 hours of accumulated EPM delivery experience, SDG has delivered 100+ EPM engagements. Our experience enables us to move our EPM projects forward with precision and agility.

EPM-Focused Specialization

With deep technical expertise, SDG has a proven track-record in both greenfield and lift-and-shift migrations between EPM solutions. Our exposure across multiple EPM vendor products enables us to dive deep and deliver seamless and non-disruptive continuity of EPM capabilities.

We Understand Cybersecurity

With deep industry knowledge and unrivaled expertise in Endpoint Privilege Management (EPM), we are uniquely positioned to deliver exactly what you need. You don't need to navigate this complex situation on your own.

A Competent Team of Technical Experts

A highly qualified team of engineers with multiple EPM solution-specific certifications augmented by meticulously developed internal knowledge-base and frameworks guarantee an accelerated path towards your organization's goal of achieve true "least privilege" controls.
