

Are You Getting Full Value from Your Microsoft Licenses?

Uncover Hidden Potential. Cut Waste. Strengthen Security.

OVERVIEW

You're likely paying for powerful Microsoft 365 and Azure capabilities you're not even using. SDG helps you take full advantage of your existing licenses to boost security, cut redundant tools, and drive real ROI.

STEP 1: LICENSE & ENTITLEMENT REVIEW

KNOW WHAT YOU OWN. USE WHAT YOU PAY FOR.

SDG begins by analyzing your current Microsoft 365 and Azure license stack:

1. Audit what you own (E3, E5, Business Premium, etc.)
2. Identify unused or underused capabilities
3. Map licenses to roles, security functions, and operational needs
4. Uncover redundant third-party tools you can retire

STEP 2: SECURITY FEATURE OPTIMIZATION

ACTIVATE BUILT-IN MICROSOFT SECURITY WITH NO EXTRA SPEND.

Many Microsoft-native security tools are already included in your license. We help you activate and operationalize them:

1. Defender for Endpoint, Identity, Cloud Apps & Office 365
2. Microsoft Purview: DLP, Insider Risk, Records Management
3. Azure AD Premium: MFA, Conditional Access, Identity Protection
4. Microsoft Sentinel (SIEM/SOAR)

STEP 3: STRATEGIC ROADMAP & COST EFFICIENCY

MAKE SMARTER LICENSE DECISIONS AND FUTUREPROOF YOUR STRATEGY.

SDG crafts a clear plan to align license tiers with your business and security goals:

1. License Optimization: Move users to the right tier (E3 vs E5)
2. Security Roadmap: What to turn on and when—with minimal disruption
3. Governance & Reporting: Gain visibility into license usage and adoption
4. Cut Costs: Identify savings through feature activation and consolidation

STEP 4: ENABLEMENT & TRANSITION SUPPORT

FROM PLANNING TO ACTION—WITH EXPERT GUIDANCE EVERY STEP.

SDG doesn't stop at strategy; we help ensure a smooth implementation and train your team:

1. Hands-on rollout & configuration support
2. User training and awareness
3. Policy alignment & documentation (RBAC, DLP, MDM)
4. Ongoing advisory and governance reviews

THE OUTCOME

MORE SECURITY. LESS WASTE. REAL ROI FROM YOUR MICROSOFT INVESTMENT.
